## About the University

Rashtriya Raksha University, an institution of National Importance, is a central university under the aegis of the Ministry of Home Affairs, Government of India, established by the Parliament of India through Act No. 31 of 2020 as a pioneering National Security and Police University of India. The University aims to become an academic-research-training ecosystem for national security and police. Its endeavours focus on highly professional national security, police education, research, and training through its qualified civilian and security faculty, committed human resources, motivated participants, and students, intellectually stimulating and professionally disciplined environment, and worldwide network, sharing, and exchange. It aims at providing security and strategic education in contemporary and futuristic security and strategic studies and interdisciplinary areas. The University contributes to the vision of India of Peace, Prosperous, and Stable World in alliance with grand strategic cooperation between like-minded nations and promoting greater understanding between internal security officers, military and para-military forces, diplomats, civil servants, and civilians to promote the cause of the Nation. It adopts a two-tier approach, at the national and international levels, in its education, research and training, and extension in order to achieve capabilities to respond to the needs, expectations, and aspirations of the security and strategic institutions and forces as well as law-making, governance, judiciary, economy and the civil society organizations.

## About Internship and Placement Branch (I&PB)

Internship & Placement Branch (I&PB) is a facilitating body conducting training, counselling skill enhancement activities for the final placement of the young minds of the university. RRU believes in creating professionals with a sense of integrity, awareness & excellence. I&PB is enthusiastic to bridge the gap between the students and the world outside the campus to be able to chase their dreams. Apart from providing job and internship opportunities, I&P Branch also offers guidance to students that helps them shape their career to empower the students to discover their true potential and help them to pursue their dreams in all possible career verticals including entrepreneurship, placement, further study and competitive examinations. Students can avail I&P Branch resources that help them to explore and plan their career effectively. I&P Branch also conducts various sessions that help students in career counselling, resume preparation, screening tests, group discussion, interview process, personality development, interactions with Alumni where they share their journey & experience and through that inspire the budding graduates. The I&P Branch provides a platform where opportunity taker(students) and opportunity giver (recruiter) can come together to explore avenues of a fruitful and collaborative association. We are proud of several such associations in the past in the form of internships and placements for which we are grateful to participating organizations both from India and abroad.

## Internships Alerts

### 3. Title: Internship

**Software Engineer, Intern**

**Office locations: Bengaluru**

#### **About Stripe**

Stripe is a financial infrastructure platform for businesses. Millions of companies—from the world's largest enterprises to the most ambitious startups—use Stripe to accept payments, grow their revenue, and accelerate new business opportunities. Our mission is to increase the GDP of the internet, and we have a staggering amount of work ahead. That means you have an unprecedented opportunity to put the global economy within everyone's reach while doing the most important work of your career.

#### **What you'll do**

Every internship at Stripe centers around a real, legitimate project that our customers urgently need, touching many parts of our operations and stack. We will support you in shipping it. Yes, you will actually ship it. Some recent projects include rebuilding our statistics aggregation service, building new service discovery systems, and many user facing projects like making it easy to understand error messages on Stripe Checkout.

#### **Minimum requirements**

A strong fundamental understanding of computer science through pursuit of a Bachelor's, Master's, or PhD degree in computer science, math, or a related discipline

Some experience and familiarity with programming, either through side projects or classwork. We work mostly in Java, Ruby, JavaScript, Scala, and Go. We believe new programming languages can be learned if the fundamentals and general knowledge are present

Experience from previous internships or other multi-person projects, including open source contributions, that demonstrate evaluating and receiving feedback from mentors, peers, and stakeholders

#### **Preferred qualifications**

At least 2 years of university education, or equivalent work experience

One or more areas of specialized knowledge balanced with general skills and knowledge, such as knowing more frontend technologies and, at a high level, how a service handles an HTTP request

Understanding and some experience writing high quality pull requests, with good test coverage, and working knowledge to complete projects with minimal defects

Familiarity with navigating and managing your work in new code bases, with multiple languages

Ability to write clearly to explain your work to stakeholders, team members, and other Stripes
